

PHILLIP BLUECHIP EQUITY YIELD

INVESTMENT OBJECTIVES

This is a discretionary managed account service¹ ("Account") which invests primarily in securities of dividend yielding companies listed within the Asia Pacific Region.

It seeks to achieve positive total returns net of all fees and charges through capital appreciation and dividend income. The portfolio will focus on the "buy and hold" strategy of securities of listed companies with sustainable dividends payout that are reasonably priced. It will also invest into the Money Market Funds managed by related company(s).

COMPOSITE PERFORMANCE as of 31 August 2021^{2,3}

Notes:

- This discretionary managed account service is not a Collective Investment Scheme ("CIS"), i.e. not an unit trust.**
- Source: Phillip Securities Pte Ltd. The Composite Performance is denominated in SGD. Composite Performance returns (the "Composite Returns") for periods more than 1 year are annualised. The Composite Returns represent past performance and is not indicative of future or current performance which may be higher or lower. The Composite Returns are based on unaudited results of the composite which comprises of client accounts with invested portfolios that have been aligned with the investment mandate of this managed account service and include reinvestment of dividends and income and, is net of all fees except performance fees (if any) which are included only at year end. **Individual portfolios returns may vary from the Composite Returns.** There may be client accounts with portfolios that have not been aligned with this investment mandate and are not included in the computation of the Composite Returns.
- This Account is not benchmarked to any market index.**
- SD (Standard Deviation) measures the average dispersion of the returns from its mean and is often used as a measure of risk or volatility. A large SD implies that there have been large swings in the returns.
- SR (Sharpe Ratio) is a measure of the excess return (over a risk-free rate) per unit of risk. The risk-free rate is based on the Monetary Authority of Singapore Benchmark Government Bond Yield 10 Year ("MASB10Y").
- Net Asset Value means the market value of the assets in the Account less all liabilities including fees, costs, expenses and charges payable or chargeable in relation to or in connection with any transaction pursuant to the Discretionary Account Management Agreement.
- High water mark means the initial invested capital of the Account or, if higher, the highest Net Asset Value that the Account has attained at the end of any previous calendar year measurement period since the inception date in which a performance fee was payable. The High Water Mark shall be adjusted appropriately for any subsequent capital contribution or withdrawal.

KEY FEATURES
